AM 04.2 Additional information. [Optional]

Fixed income credit investments: We have one specifically ESG- oriented fund. Generally speeking we engourage fund managers to consider ESG- issues as a part of company analysis to capture risks and opportunities of companies also outside of financial statement. The rationale of ESG- integration is that responsible behaving companies have better opportunities to perform better in a long run.

A 17.3 Please attach or provide a URL to your voting policy. [Optional]

http://www.elo.fi/about-elo/investments/elos-ownership-policy

Provide a brief overview of your organization's approach to (proxy) voting (including the filing and/or co-filing of shareholder resolutions if applicable).

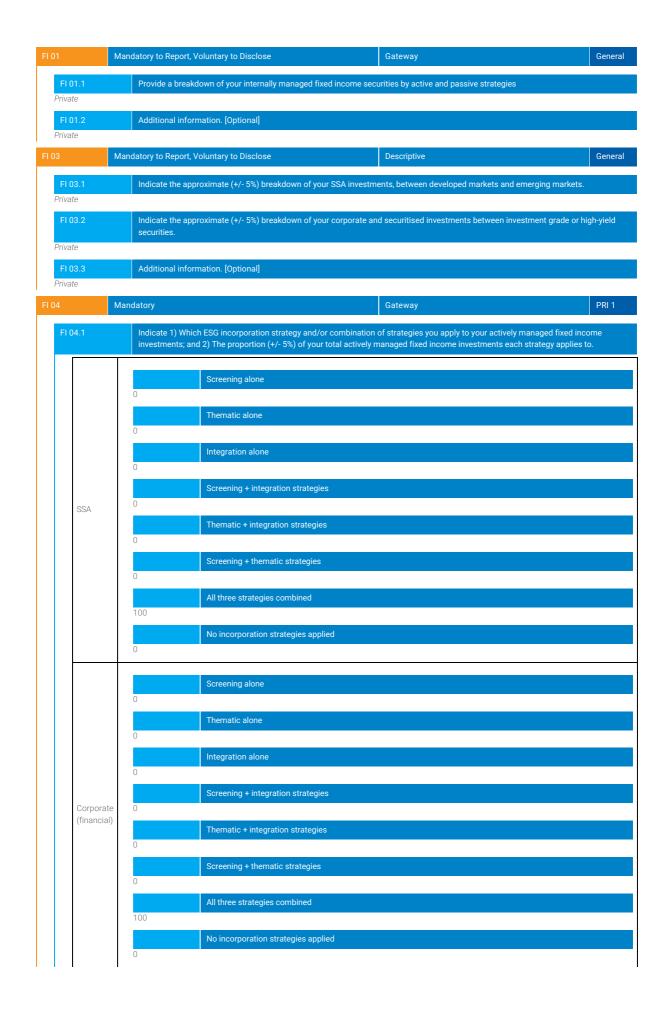

Elo primarily exercises its ownership policy in two ways: by participating in the general meetings of the companies in which it holds an interest and by engaging in dialogue with company management. Elo considers annual general meetings and the preparatory work for these meetings, along with regular meetings with company management, to be the most important means of influence in terms of its ownership policy. Elo attends the general meetings of companies listed in Finland in person and by proxy outside of Finland through a partner that is provided with clear instructions regarding Elo's objectives before the meeting.

🗹 We red	quire issuers to report at least once per y	year on specific environmental or social impacts resulting from our themed invest	tments		
🛛 We en	sure independent audits are conducted o	on the environmental or social impact of our investments			
We have a proprietary system to measure environmental and social impact					
🛛 We me	easure the impact of our themed bond in	nvestments on specific ESG factors such as carbon emissions or human rights			
□ Other	specify				

None of the above

Mandatory Descriptive PRI 1

FI 14.1Describe your approach to integrating ESG into traditional financial analysis.

Within the credit investments ESG issues are integrated into the investment process on a portfolio manager level. In addition we also use external screening services. An ongoing dialogue and meetings with companies' management teams and in-depth knowledge of the investment targets all reduce the chance of negative surprises and provide an understanding of the kinds of factors that make a good, responsibly operating company, and thus a good investment. Our approach is mainly qualitative but we use a scoring/rating on specific corporates. A good scoring improves the overall investment score and a weak ESG rating reduces the investment score.

Describe how your ESG integration approach is adapted to each of the different types of fix

SSA

ESG issues are integrated firmly into investment process. Country-level ESG analysis forms the basis with individual country rankings. Thorough follow up analysis is done to supplement initial screening.

Corporate (financial

ESG issues are integrated into the investment process on a portfolio manager level. In addition we also use external screening services. An ongoing dialogue and meetings with companies' management teams and in-depth knowledge of the investment targets all reduce the chance of negative surprises and provide an understanding of the kinds of factors that make a good, responsibly operating company, and thus a good investment. Our approach is mainly qualitative but we also use a scoring/rating approach on specific corporates. A good ESG scoring improves the overall investment attractivness and a weak ESG rating reduces the investment attractivness

Corporate (non-financial

ESG issues are integrated into the investment process on a portfolio manager level. In addition we also use external screening services. An ongoing dialogue and meetings with companies' management teams and in-depth knowledge of the investment targets all reduce the chance of negative surprises and provide an understanding of the kinds of factors that make a good, responsibly operating company, and thus a good investment. Our approach is mainly qualitative but we also use a scoring/rating approach on specific corporates. A good ESG scoring improves the overall investment attractivness and a weak ESG rating reduces the investment attractivness.

	O For a minority of property managers
	PR 13.3 Provide a brief description of your organisation's selection, appointment and monitoring of third party property managers. [Optional]
	Third party manager selection is done through negotiations with potential partners based on our policies, requirements, objectives and legislation guiding our operations as a Finnish mutual pension insurance company.
	Manager selection is done on the basis of e.g. manager's expertise in certain property class or market area, identifying environmentally friendly and cost-effective solutions in property maintenance and customer service capability.
	In addition, we investigate manager's commitments to quality standards, other initiatives such as "green office", "best place to work" or other employee well-being measurement systems, references etc. and make sure that all manager's operations comply with legislation.
	We monitor our third party managers by regular meetings and reporting in accordance with our operating protocols. Decisions and alignments are documented.
	PR 13.4 Describe how your third party property managers contribute to the management of ESG issues for your property investments. [Optional]
	Managers monitor buildings' energy, water and electricity consumption through their IT-systems and seek opportunities to reduce these impacts as well as provide information for us related to these issues. Specific projects aiming at reducing environmental impacts (e.g. environmental certificates, waste management, air ventilation units, lighting, building automation systems, window sealings etc.) are discussed in cooperation with managers.
	We conduct tenant satisfaction surveys with our partner on yearly basis and go through the results as well as tenants' suggestions for improvements with property managers and decide on arrangements based on the results. We require careful selection of service providers on property maintenance and projects in order to assure that all regulations and legislation is met.
