## AM 04.2 Explain how you integrate ESG factors in the selection, appointment and monitoring of your passive funds

In passive funds we monitor specific ESG- issues.

## SAM 04.3 Additional information. [Optional]

Fixed income credit investments: We have one specifically ESG- oriented fund. Generally speeking we engourage fund managers to consider ESG- issues as a part of company analysis to capture risks and opportunities of companies also outside of financial statement. The rationale of ESG- integration is that responsible behaving companies have better opportunities to perform better in a long run.

## When monitoring managers, indicate which of the following types of responsible investment information your organisation typically reviews and evaluates from the investment manager in meetings/calls

	LE	FI - SSA	FI - Corporate (financial)?	FI - Corporate (non- financial)?	Private equity	Property	Infrastructure
ESG objectives linked to investment strategy							
Investment restrictions and any controversial investment decisions							
ESG incorporation objectives (with examples)							
ESG portfolio characteristics							
How ESG materiality has been evaluated by the manager in the monitored period							
Information on any ESG incidents							
Metrics on the real economy influence of the investments				×.			
PRI Transparency Reports							
PRI Assessment Reports							
Other general RI considerations in investment management agreements; specify							
None of the above							

If you select any 'Other' option(s), specify

PE & Infra: fund manager's own RI-reports and case studies

	LE	FI - SSA	FI - Corporate (financial)?	FI - Corporate (non- financial)?	Private equity	Property	Infrastructure
ESG score				<b>I</b>			
ESG weight							
Real world economy targets			<b>⊻</b>	<b>∀</b>			
Other RI considerations							
None of the above							

#### If you select any 'Other' option(s), specify

LE and FI: We monitor broadly managers' practices regarding ESG. When possible we monitor also portfolios underlying holdings.

Infra: The followup varies case by case.

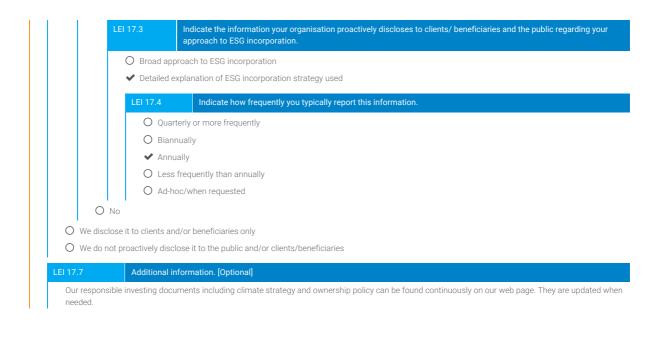

#### When monitoring managers, indicate which of the following active ownership information your organisation typically reviews and evaluates from the investment manager in meetings/calls Engagement FI -FI - Corporate FI - Corporate (non-(financial)? SSA financial)? $\Box$ $\Box$ $\Box$ Report on engagements undertaken (outcomes and examples) $\Box$ Account on engagement ESG impacts Other RI considerations relating to engagement in investment management $\checkmark$ $\checkmark$ $\checkmark$ agreements; specify None of the above In DD questionnaires we ask managers' processes regarding engagement and ownership practices.

16.2 Please provide more detail on how you review E, S and G factors in your integration process.

SSA

Environmental issues are currently under development in SSA investments. Social and Governance issues fully integrated into SSA investment process

Corporate (financia

Within financials it is similar to the description on corporates below but there is more focus put on the governance issues.

Corporate (non-financial

A starting point is whether there are or has there been serious controversies. If yes we raise the question whether they have been resolved. The ESG factors can vary between sectors. Typical elements within environment would be toxic emissions and waste, water stress, carbon emissions, product carbon footprint and opportunities in clean tech. Social aspect includes labour management, health and safety or product safety. Within Governance the general corporate governance, anti competitive practicies and Business ethics & fraud. The focus on these issues varies between sectors.
