	☑ We incorporate ESG into our external manager selection process
Hedge funds	☑ We incorporate ESG into our external manager appointment process
	☐ We do not do ESG incorporation
	Forestry - ESG incorporation addressed in your external manager selection, appointment and/or monitoring processes
Forestry	☑ We incorporate ESG into our external manager selection process
i orestry	☑ We incorporate ESG into our external manager appointment process
	☑ We incorporate ESG into our external manager monitoring process
	☐ We do not do ESG incorporation

Our DD questionnaire includes a section devoted to ESG issues. We ask the fund manager to provide wide range of information on their stance towards ESG issues, ie. do they have a written policy on responsible investing or ESG- issues, is it integrated to their processes, whether they have an engagement policy, are they reporting ESG related risks / opportunities to their investors, do they have a published climate strategy and so on.

We monitor broadly managers' practices regarding ESG. We analyze underlying holdings of each fund, and if we find controversies related to specific companies, we will discuss them with the manager. When possible we monitor also portfolios underlying holdings. Also, we interview fund managers on ESG-practices and integration.

Within the corporate investments ESG issues are integrated into the investment process on a portfolio manager level within the overall company analysis. We also use external screening services. Screening strategy is done to understand the risks in the specific investment and on a portfolio level. We screen for certain elements like CO2 emissions, controversial weapons, global compact and positive impact. The thematic approach involves for e.g CO2 intensity and positive impact within the credit portfolio

PR 07.3

Provide a brief description of your organisations selection, appointment and monitoring of third party property managers and how they contribute to the management of ESG issues for your property investments.

Third party manager selection is done through negotiations with potential partners based on our policies, requirements, objectives and legislation guiding our operations as a Finnish mutual pension insurance company.

Manager selection is done on the basis of e.g. manager's expertise in certain property class or market area, identifying environmentally friendly and cost-effective solutions in property maintenance and customer service capability.

In addition, we investigate manager's commitments to corporate responsibility and environmental initiatives as well as employee equality programs, employee well-being measurement systems, references etc. and make sure that all manager's operations comply with legislation.

We monitor our third party managers by regular meetings and reporting in accordance with our operating protocols. Decisions and alignments are documented.

During the reporting year 2017 we carried out a major restructuring of residential properties' management.

Mandatory Gateway Indicate if your organisation, and/or property managers, considers ESG issues in post-investment activities relating to your property ✓ Yes Indicate whether your organisation, and/or property managers, considers ESG issues in the following post-investment activities relating to your property assets. ☑ We consider ESG issues in property monitoring and management ■ We consider ESG issues in property developments and major renovations. ☑ We consider ESG issues in property occupier engagements ☑ We consider ESG issues in community engagements related to our properties ■ We consider ESG issues in other post-investment activities, specify Communication with tenants and other partners e.g. by providing them property-specific ESG information Describe how your organisation, and/or property managers, considers ESG issues in post-investment activities related to your We monitor consumption figures on energy, electricity, water and waste and seek for opportunities to improve efficiency. This is mainly conducted by the property of the conducted by the property of the prthe managers, who monitor the figures through their IT-systems and seek opportunities to reduce these impacts as well as provide information for us related to these issues. Specific projects aiming at reducing environmental impacts (e.g. waste management improvements, air ventilation units, lighting, building automation systems, window sealings etc.) are discussed in cooperation with managers.

We conduct tenant satisfaction surveys with our partners on yearly basis and go through the results as well as tenants' suggestions for improvements with property managers and decide on arrangements based on the results. We require careful selection of service providers on property maintenance and projects in order to assure that all regulations and legislation is met and sites are safe and environmental issues are covered.

With one of our main management partner we have established a cooperation group consisting of Elo's and managers' key personnel in order to develop implementation of energy and environmental issues.

O No

PR 09 Mandatory Core Assessed PRI 2,3

PR 09.1 Indicate the proportion of property assets for which your organisation, and/or property managers, set and monitored ESG targets (KPIs or similar) during the reporting year.

O >90% of property assets

✓ 51-90% of property assets

O 10-50% of property assets

O <10% of property assets

PR 09.2 Indicate which ESG targets your organisation and/or property managers typically set and monitor

☑ Environmental

Target/KPI	Progress Achieved
Energy and electricity consumption	Extension of properties monitored, commitment to national energy efficiency agreement.
Water consumption	Extended installations of new technology equipment to decrease water comsumption
Waste amounts and recycling	Improvements in waste management facilities etc. Education offered for tenants.

Social

Target/KPI	Progress Achieved
Tenant satisfactio	Slightly increased tenant satisfaction. We have updated processes concerning activities linked to customer relationships such as property management, leasing, lease administration

PR 12.3 Additional information. [Optional]

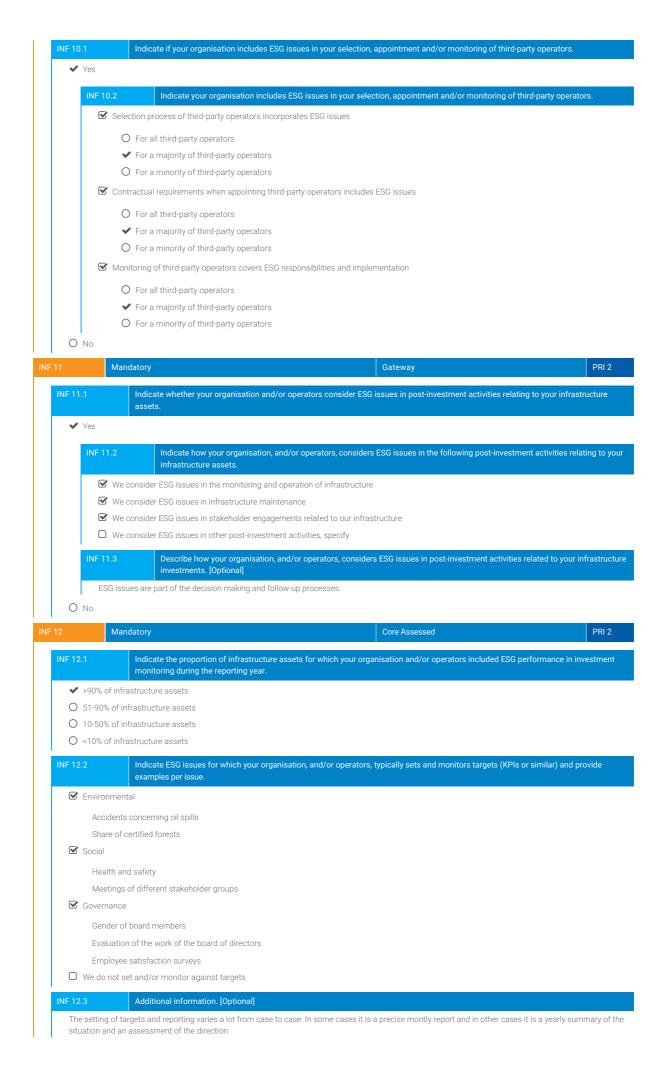

In some of our buildings, modern information screens in common areas provide real-time information on consumption figures (energy, water etc.) of the building as well as advice in order to reduce these environmental impacts.

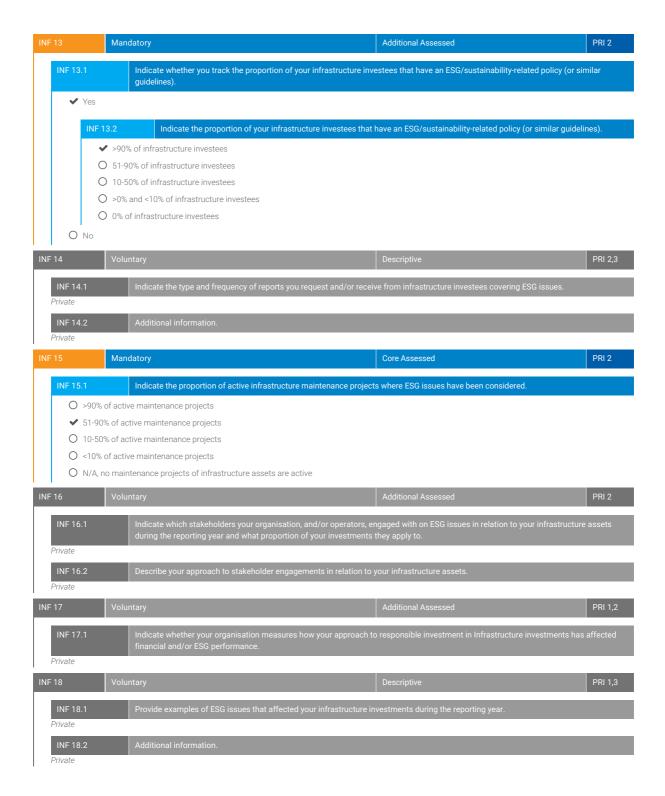

For residential tenants, we have building specific websites, which offer information on energy efficiency, general instructions, contact information etc.

In our large shopping centers waste management is a significant issue. We aim at minimizing waste amounts and maximizing recycling by increasing awareness and offering practical guidance for improved waste management in cooperation with our tenants.

Indicate the proportion of all leases signed during the reporting year that used green leases or the proportion of Memoranda of Understandings (MoUs) with reference to ESG issues. PR 13.1 O >90% of leases or MoUs O 50-90% of leases or MoUs O 10-50% of leases or MoUs O <10% of leases or MoUs ✓ 0% of leases or MoUs O N/A, no leases or MoUs were signed during the reporting year We provide guidance for tenants in environmental efficiency objectives by providing for example sustainability guides and tips. In many properties, we have certifications (LEED), which require many ESG related operations such as improved waste management, energy efficiency monitoring etc. These operations and initiation of certificates is done in cooperation with our tenants. Tenants are also committed in environmental efficiency objectives in many properties through maintenance rents. ndicate what proportion of property assets your organisation, and/or your property managers, engaged with the community on ESG Private PR 14.2 PR 14.3 Indicate whether your organisation measures how your approach to responsible investment in property investments has affected financial and/or ESG performance.
